

Attention: Annuity Agents Requiring Continuing Education Credits

Certain states now mandate that all insurance agents who wish to sell fixed rate, fixed index or variable annuities must successfully complete specific required continuing education (C.E.) courses. CPS and the North American Company for Life and Health Insurance (NACOLAH) are partnering with the online continuing education provider SuccessCE to assist you with your continuing education.

The [SuccessCE](#) library of approved CE courses allows agents quick access to courses that satisfy their state's mandated requirements. The cost for these courses range from \$14.95 - \$19.95. This includes access to study material, grading, a certificate of completion and notification to the appropriate Department of Insurance once the course is completed.

For all agents that submit fixed, index or immediate annuity business with NACOLAH* with premiums totaling \$50,000 within six months of taking this course, CPS will provide a SuccessCE web CE voucher good for up to 12 hours of additional on-line CE credits.

To order over the phone – call your CPS Insurance Services Annuity Department.

To receive your web CE voucher - save your receipt and submit it along with your annuity application(s) and a printout of this page to your CPS Annuity Department.

Contact your CPS Annuity Department for more information. Contact information can be found on your CPS Affiliate's page.
